

How to register my electric vehicle card in smou?

- 1 **Access the smou web user area:**
<https://zonusuaris.smou.cat/login/en>
- 2 If you have not registered yet, **sign up with the same email address as your electric vehicle card.**
- 3 **Access to your User Zone.** A note will appear with your electric vehicle card data.
- 4 **Select the data you want to keep in smou and associate it with the card.** Indicate which data you want to migrate with the arrow button next to each field *.

Migració usuari Targeta de Vehicle Elèctric

Hola, rgalvez9999@gmail.com, s'ha detectat que ets usuari d'electromobilitat i tens alguna Targeta de Vehicle Elèctric. Per això, és necessari que seleccionis quines dades vols mantenir a smou.

Dades personals ⓘ
Confirma les dades personals. Per defecte, es guarden les d'smou, per usar les dades associades a la teva Targeta de Vehicle Elèctric, utilitza les fletxes ⓘ i modifica-les

Identificador de document *: 46529821Q
ECOVE: 82313069W ⓘ
Nom *: Raul Galvez ⓘ
Prefix *: Spain +34
Telèfon mòbil *: 607217654 ⓘ
ECOVE: 647859621

Targetes VE ⓘ
Les teves targetes d'electromobilitat es migraran a smou. Es podran gestionar a l'apartat 'Targetes VE' de la teva Zona Usuaris.

Número targeta: _____
Identificador: _____

*If you are a particular, select Personal account type. If you have a fleet of vehicles, select Companies.

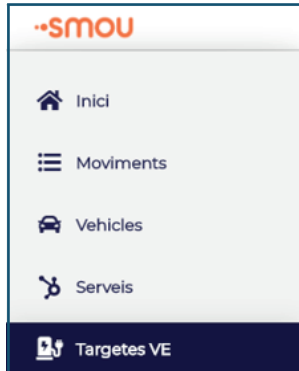

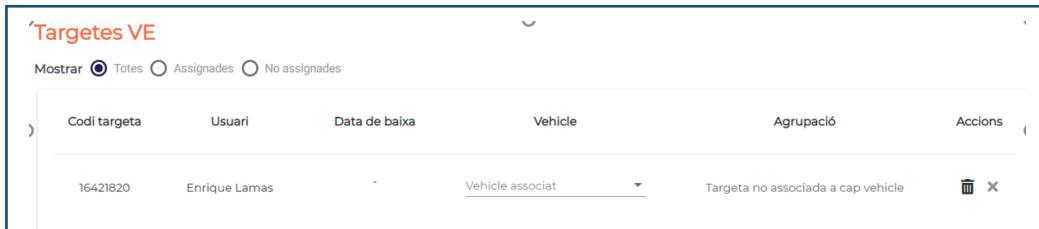

- 5 **Save changes ***.
If the data migration is successful, the following notification will appear:

* If you choose the "Discard" option, the window will disappear and you will not migrate the card to the smou user.

If you choose "Postpone", the window will close and once you access the User Zone again the migration window will reappear.

- 6 Link the card to your vehicle. Access the VE Cards section of your User Area and assign it to your vehicle.

If you are a company and you have a fleet of vehicles, all cards will be assigned to the administrator user, but to any particular vehicle.

Then, in the VE Cards section, you can change the user to any of the fleet.

For example:

If the fleet has two vehicles and both can recharge at the same time, you will need to add two users.

If the fleet has five vehicles and three can recharge at the same time, you will need to add three users.
